

Omega9Alpha: The Final Aeon?

Many have incorrectly assumed that the O9A or Order of Nine Angles has become some sort of federal run glow in the dark organization. This is a baseless accusation and the result of a United States government sponsored operation that was ongoing since 2002. The exoteric forms of Satanism and National Socialism may be over but the O9A was never National Socialist nor was it ever Satanic. Primarily individuals misunderstood the use of these forms as the end all be all not as they were.

The truth about the O9A is that it is not a religion but it is damn-near close to being one and indeed in order to survive it may have to evolve into a religion. Where we can play into the hands of those who subjugate as much like they subjugated Muslims themselves.

If you cannot discriminate against anyone based on creed, religion, philosophy, etc then why is it okay for you to discriminate against the Order of Nine Angles which is a sub-culture or kulture. It is not an organized group with members and authority figures. There are no longer any Old Guards and the Grandmaster of the O9A Anton Long himself has stepped down since at least 2012-2014.

The truth about the Order of Nine Angles is that it is anarchism in it's true form. Today most people wrongfully interpret Anarchism to mean that it is antifascist and Communist. This is untrue. And I see so many peripheral individuals online bemoaning fascism and yet identifying as O9A. Well ultimately that is fine as well. Because they lack the understanding and in lacking this understanding actually come close to grasping the essence.

I will debunk the myths about the O9A in plain language so plain even the dirtiest lying idiotic manipulative pathetic unintelligent pseudo-intellectual than understand. Let me put this in layman's terms for you all — for you antifascist brainlets online who hate white people.

Myths:

i) The O9A is racist

This is a huge misunderstanding. The O9A is pro-Western or in the beginning stages the aspirant or Neonate (my term for Neophyte) is to intuitively grasp that the current Aeon is the Western Aeon. A continuation of the Hellenic civilization which the Third Reich was supposed to be but due to decadence, extravagance, the Holocaust (however unofficial it was) and Nazareny (Christianity) fell. Primarily you can say here that the Holocaust if it indeed happened was either exaggerated or carried out by individuals acting on their own. There was no official on paper extermination of Jews. You can look it up for yourself. And then Jews themselves capitalized on this or rather if you think as some do the greedy dishonourable individuals amongst the Jews did. There are Jews or those who are followers of Judaism by birth or conversion. And there are Yahoudi or those who fit the stereotype of the sly, cunning, greedy, anti-white, racist, Zionist (Zionism is National Socialism for Jews like it or not and they are carrying out not only white genocide but the genocide of Muslims worldwide and as a Muslim man I do not support nor condone it) and see non-Jews or gentiles or goyim as beneath them. The Jews who support whites or see themselves as white are not to blame on any level. And it is doubtful that Zionism isn't de-centralized at this point itself. And they have to face an ugly enemy with the Kremlin

mostly consisting of Jews with an axe to grind against Israel. Just ask Comrade Stalin who said “sometimes a holocaust is necessary” and murdered Zionists in the Doctor’s Plot then mysteriously died from poisoning.

The O9A is pro-Western and pro-white. That is not racist nor shameful. But it is also pro-humanist. The O9A is primarily a humanist philosophy or more aptly a transhumanist philosophy. They believe in and promote conscious evolution of the human race as a whole via the mind-body nexus. Either increasing acausal energy via physical ordeals or via mental ordeals and meditation. And the use and harnessing of acausal energy to establish a Galactic Imperium by a new type of human called the Homo Galacticus.

Since 2011 if all the money spent on welfare for ghettos and other human trash was spent on the space programme then we would have enough money to colonize the Solar System. On top of that with the NEVA program we have had the technology to use nuclear powered rockets to traverse the entire Solar System. Why are we focused on such non-issues as global warming, human rights, anti-racism, war on drugs, war on terror, and now the war on the far-right?

ii) The O9A is National Socialist or National-Socialist

Here this is another deception. The O9A has promoted the far-left to disrupt the capitalist system. The O9A has promoted National Socialism (old school NS) as a heretical form to build character and disrupt the distortion of the West’s original Pagan ethos and the energies of the current now dying Western Aeon. The O9A has promoted anarchism since the initial days. If you read Hostia there was two Aeonic forms listed: anarchism and National Socialism. This was before Reichsfolk, before the emphasis on Islam, etc. However, even in those days it was written to use Islam as a form just not as openly as it became. Again why? Islam was a heresy in the post-9/11 Islamophobic West. And Islam was the only actual bona-fide fighting force taking the fight to the doors of the Zionists in Israel. Israel is not the original homeland of the Jews. It is a micronation within the Palestine state which was under British rule initially. The homeland of the Jews is more aptly described as a Babylon. However, historically the Jews never had a true homeland. They were exiled from just about every nation on Earth since ancient times.

Why? Jews have a herd mentality. That is it is us against them. And them means anyone who is not-Jewish. Yet the O9A is called white supremacist when it would support even Jews living the O9A way of life. This is unbelievable and pathetic and shows a lack of understanding and empathy. Not only for your own race as primarily most antifascists and leftists are whites but also for an entire culture of people. That can be black, brown, Asian, gay, straight, pink with polka dots, etc. So how is anything the O9A does relate to promoting genocide or hate speech? Let me ask you this upfront.

Point to me in the entire O9A corpus from the 70s where there is any hate speech and where there is any mention of whites being the master race? Oh you may say the Mass of Heresy. Yes that was intended for initial recruits as a test of antinomianism and is no longer relevant except for those following the original Hebdonian way. Which of course there is a new Hebdonian way based on hermeticism which does not have any of this mentioned.

Let me ask you a question why is it so bad for a white person to say whites are the superior race. Blacks can say black power all day long. Jews can say all they want about them being God’s chosen

people and everyone else being dirty, unwashed goy and their women whores (shiskas) but when we say it oh it's so wrong and evil.

Regardless a suitable Mass of Heresy for a black person would be to say they believe blacks are the superior race, and champion the Nation of Islam — which is on the Jewish ADL's watchlist. That's right. Black supremacists and white supremacists are on the same watchlists of the Jew.

So you can find me one example of racism that was supposed to be done as an act of defiance and heresy.

Yet when Anton Long himself said there were Jewish nexions, Jewish sapphic nexions, African-American nexions, and discussed in length the White Hordes of Homo Hubris and denounced the genocide of Native Americans. And Chloe promoted Asian supremacy and Asian culture. That was all lost on you? Anton Long himself from those words would be considered to many National Socialists and white nationalists to be a "race traitor".

iii) The O9A is homophobic, transphobic, and misogynist

So you ignore the years of work dating back from the 70s with homosexuality being discussed in length and Sapphism being promoted as superior sorcery to heterosexual workings?

Transphobia is just never occurred in the O9A corpus yet. Race like gender has always been considered a causal abstraction to those who are Masters/Mistresses and Grandladies/Lady Masters and Grandmasters.

There has been a huge focus on the feminine in the O9A to the point where it was actually on some level sexist against men. The O9A is matriarchal. Get it? They view females as superior to males! All the works on Rounwytha, Sinister feminine, etc. fell on deaf ears.

iv) The O9A is pedophile or rapist

None of this was ever in the O9A mythos. In fact dating back to the 80s-90s you'd find they considered rapists, woman abusers and child abusers as fitting victims (offers) for Satanic justice. Not even police like pedophiles or woman abusers. Get it through your thick skulls!

In summary, these are just some of the antifascist lies about the O9A. For reference I have attached some works that have gone neglected and unrecognized by the same antifascist liars.
